

Special Issue

HPV Vaccination: Basic and Clinical Research

Message from the Guest Editors

We are soliciting articles for a Special Issue of the MDPI journal *Vaccines*, entitled “Feature Paper of Vaccines and Women's Health”. Future studies about HPV vaccination are needed to evaluate clinical protection against disease recurrence in treated patients for all HPV-related diseases, with comprehensive postvaccination surveillance evaluating the reduction of recurrence risk. Three prophylactic vaccines against HPV infection are available and have been shown to prevent persistent HPV infection and precancerous cervical abnormalities, while therapeutic vaccines are not yet commercially available. Our call is addressed to papers covering any and all of these issues, focusing primarily on HPV vaccination from both clinical and basic research points of view.

Guest Editors

Dr. Alessandro Ghelardi

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /
CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
