

Special Issue

Vaccination with Public Health Perspective: Prevention and Control Strategies

Message from the Guest Editors

Dear colleagues, This Special Issue aims to focus on COVID-19 prevention and control with a particular public health perspective. Special interest lies in the analysis and descriptions of policies and strategies concerning vaccination in the context of public health, health policy, and health planning with specific focuses on local, regional, and national approaches, as well as new knowledge on vaccination and any aspect of COVID-19 prevention and control. The topics should centre around studies related to research articles, reviews, and perspectives directly related to COVID-19 measures, including current and future avenues for the prevention of the disease.

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine,
University of Georgia, Athens, GA 30602-7387, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /
CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
