

Special Issue

Feature Papers of Pathogens-Host Immune Interface

Message from the Guest Editor

As Section Editor-in-Chief of “Pathogens–Host Immune Interface”, I am glad to announce the Special Issue “Feature Papers on the Pathogens–Host Immune Interface”. This Special Issue covers all topics relevant to the science underlying the pathogen–host immune interface, from initial innate interactions with the host cell to the most complex adaptive immune response involving different types of cells interacting at the systemic level. In this Special Issue, we will collect articles from top researchers describing new approaches or new cutting-edge developments in the fields of the pathogen–host immune interface, as well as in other relevant scientific fields. We welcome the submission of manuscripts from Editorial Board Members and from outstanding scholars invited by the Editorial Board and the Editorial Office. You are welcome to send short proposals for submissions of Feature Papers to our Editorial Office (Vaccines@mdpi.com) for evaluation.

Guest Editor

Dr. François Meurens

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine,
University of Georgia, Athens, GA 30602-7387, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /
CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
