

Special Issue

The Immune Response to Viral Infection

Message from the Guest Editors

We are pleased to invite you to submit to the Special Issue of *Vaccines* entitled “The Immune Response to Viral Infection”. This Special Issue aims to highlight the latest data regarding the innate and adaptive immune responses to emerging viral infections and viral infections of special concern. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- The innate or adaptive immune response to viral infection in humans or in animal models;
- Mechanisms contributing to immune control of viral infection;
- Correlates of protection against severe viral disease or determinants of disease severity;
- Organ-specific immune responses during viral infection;
- Immune responses to vaccines against emerging viruses and other viruses of concern.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /
CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
