

## Special Issue

# Vaccination Related Adverse Reaction

### Message from the Guest Editors

It is our pleasure to announce a new Special Issue on vaccine-related adverse reactions. This issue will feature not only SARS-CoV-2 vaccines but also adverse reactions of vaccines such as influenza, rubella and measles, etc. We welcome not only major side reactions but also minor adverse reactions. We also welcome reviews, research treatises, and case reports.

## About the Journal

### Message from the Editor-in-Chief

*Vaccines* (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.
