

Special Issue

Vaccines for Infectious and Chronic Diseases

Message from the Guest Editor

Dear Colleagues, This Special Issue focuses on vaccine formulation development for infectious diseases and chronic diseases. Submission of original articles, systematic reviews, short communications, and other types of article on related topics is welcome.

Manuscripts will follow standard Journal peer-review practices, and those accepted for publication will appear in the Special Issue on Vaccines for Infectious and Chronic Diseases. We look forward to receiving and welcome your contributions. Keywords:

- vaccine
- formulations
- adjuvant
- antigen
- pathogen
- delivery systems vaccine stability
- cancer
- infectious diseases and chronic diseases

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X), founded in 2013, now has a firm history of publishing peer-reviewed, state-of-the-art research papers on vaccines and vaccination in the broadest sense. Areas covered include, but are not limited to, novel and emerging vaccine technologies, building on in-depth knowledge of what constitutes a protective immune response. These can be new vaccines for old diseases, or old vaccines for new diseases. Vaccines against cancer and autoimmune diseases explicitly are also within the scope of the journal. Because public opinion and even government policies towards vaccines and vaccination have changed, vaccine policy and public health issues are major concerns. Climate change will also have an impact on the spread of infectious diseases, and thus also on vaccine and vaccination policies worldwide.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /
CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
