Special Issue

Research in Human Sepsis and Its Immunology

Message from the Guest Editor

We would like encourage the presentation to this Special Issue of recent advances in the understanding of the cellular and signaling mechanisms that underpin the profound immune-suppressive state that exists in human sepsis. Articles providing novel insight into signaling pathways governing the interaction of inflammation and immunity in human sepsis are sought. We welcome articles on the clinical relevance of immune suppression in human sepsis and relevant biomarkers of immunity and inflammation that may potentially be of use in this clinical arena. Articles relating to novel immune-modulating therapies for humans with sepsis are sought after.

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine, University of Georgia, Athens, GA 30602-7387, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) / CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
