

Special Issue

Advances in Veterinary Vaccine

Message from the Guest Editor

To date, vaccines are widely used to control many infectious diseases of veterinary importance. In recent years, there has been a renewed interest in the development of veterinary adjuvants and vaccines, taking advantage of novel technologies in genomics, immunology and infectious diseases. As a result, important breakthroughs have been achieved that will shape the way infections of production animals and wildlife will be tackled in the future. This special issue considers these new advances and their implications in the field of veterinary vaccines. The interplay between human and veterinary vaccine development will also be considered. “Advances in Veterinary Vaccines” will become critical in the future.

About the Journal

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine,
University of Georgia, Athens, GA 30602-7387, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) /
CiteScore - Q1 (Pharmacology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).
