

# Special Issue

## Intelligent Connected Vehicles

### Message from the Guest Editors

This Special Issue focuses on highlighting the progress and technological innovations in connected vehicles. With the rise of the Internet of Vehicles (IoV) and autonomous driving technologies, smart connected vehicles are becoming essential for transportation systems. The increasing demand for transportation solutions is driving the exploration and innovation of technologies in this field. This Special Issue aims to explore how vehicle intelligence merges with internet technologies, covering driving systems, in-vehicle networks, vehicular communication technologies, big data analysis, and applications of intelligence. This Special Issue invites research contributions on interconnected cars, specifically how they interact with vehicles, infrastructures, and communication systems. We encourage practical or computational investigations (or a mix of these methods).

### Guest Editors

Dr. Shih-lin Lin

Graduate Institute of Vehicle Engineering, National Changhua University of Education, Changhua 50007, Taiwan

Dr. Wenbin Wan

Department of Mechanical Engineering, University of New Mexico, MSC01 1150, Albuquerque, NM 87131, USA

### Deadline for manuscript submissions

30 November 2025

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Mohammed Chadli

Department UFR Sciences and Technologies, Université Paris-Saclay,  
91020 Evry, France

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei  
Compendex, and other databases.

##### Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q2  
(Automotive Engineering)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 22.1 days after  
submission; acceptance to publication is undertaken in 3.6  
days (median values for papers published in this journal in  
the first half of 2025).
