### Message from the Guest Editors

Dear Colleagues,

Ocular disease in horses continues, in some cases, to be difficult to treat. Fortunately, there is a dedicated group of clinicians and researchers across the globe working on treatment solutions. However, despite the widespread use of internet communication and social media, there are few good avenues to share their important evidence-based research on the treatment of equine ocular diseases. The purpose of this Special Issue is to provide a resource for the rapid and wide dissemination of cutting-edge research in equine ophthalmology. Because *Veterinary Sciences* is an international, open-access journal, manuscripts published in the Special Issue are expected to have a worldwide impact with the goal of substantially improving equine ocular health.

Prof. Dr. Brian Gilger

Prof. Dr. Richard J. McMullen Jr.

## Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
