Message from the Guest Editors

Dear Colleagues,

We believe that a multidisciplinary approach is an important policy for increasing collaboration and communication in all aspects of health care for babies and animals. The objective of this Special Issue is to combine synergies that could disclose unanswered questions and knowledge into zoonotic disease, antibiotic resistance, and animal farming and welfare.

We propose the Special Issue of "Babies and Animals: Pediatricians Meet Vets", where the aim is to achieve a synergism and exchange of scientific knowledge between the doctor and veterinarian in order to improve medical education on childhood. It is hoped that this Special Issue will further stimulate collaboration between scientists engaged in all aspects of this field of research.

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Veterinary Sciences*) / CiteScore - Q2 (*General Veterinary*)
