Special Issue

Advances in Zoo, Aquatic, and Wild Animal Medicine

Message from the Guest Editors

Advances in veterinary surgery and pharmacology are transforming the treatment of zoo and wild animals, improving clinical outcomes, and enhancing animal welfare. Innovations in diagnostic and surgical techniques, anesthesia, pain management, physiotherapy, and medical and pharmacological therapies are essential for managing complex conditions and adapting treatments to different animal species. However, challenges remain in optimizing diagnostic and treatment procedures, improving medication efficacy, and ensuring safe, species-specific applications. This Special Issue, titled "Advances in Zoo, Aquatic, and Wild Animal Medicine", invites original research, reviews, and case reports on innovative surgical and pharmacological treatments in veterinary medicine. We welcome articles that explore novel diagnostic procedures, surgical techniques, drug developments, and other interdisciplinary approaches that improve patient care. We encourage veterinary researchers to contribute to this Special Issue, and in turn foster collaboration to advance animal healthcare.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

- Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium
- Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
