Advances in Veterinary Nephrology and Urology of Small Animals

Message from the Guest Editors

Nephrology and urology are critical fields in small animal veterinary medicine, addressing disorders of the kidneys, urinary tract, and associated systems that significantly impact animal health and quality of life. Recent advances in diagnostic imaging, laboratory biomarkers, minimally invasive procedures, and therapeutic interventions have enhanced the detection, monitoring, and treatment of renal and urinary diseases in dogs and cats. Furthermore, emerging research on molecular mechanisms, genetic predispositions, and comparative pathology provides new insights into disease etiology and progression. This Special Issue, *Advances in Veterinary Nephrology and Urology of Small Animals*, aims to compile original research, reviews, and case reports that highlight innovative diagnostic tools, novel therapies, and translational studies, ultimately contributing to improved clinical outcomes and the advancement of veterinary nephrology and urology.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium
 2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.8 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
