Exploring Innovative Approaches in Veterinary Health

Message from the Guest Editors

Veterinary health is a rapidly evolving field that demands continuous innovation to address emerging challenges in animal disease prevention, diagnosis, and treatment. This Special Issue, "Exploring Innovative Approaches in Veterinary Health", aims to highlight cutting-edge research and novel strategies that enhance veterinary practices, improve animal welfare, and contribute to public health. We welcome high-quality review articles and original research papers, as well as a limited number of case reports that provide valuable insights into innovative diagnostic, therapeutic, and management approaches. Topics of interest include advancements in diagnostic technologies, precision medicine in veterinary care, novel therapeutics, vaccine development, and integrative approaches to disease management. Additionally, we encourage research on the application of artificial intelligence, big data analytics, and digital tools in veterinary health. By fostering interdisciplinary collaboration and knowledge exchange, this Special Issue seeks to advance the veterinary profession and support sustainable animal health solutions.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, Kowloon, Hong Kong
2. Department of Pathobiology, Pharmacology and Wildlife Medicine, Faculty of Veterinary Medicine, Ghent University, 9820 Merelbeke, Belgium

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.8 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
