

Special Issue

Advanced Therapy in Companion Animals

Message from the Guest Editors

The Special Issue on "Advanced Therapy in Companion Animals" focuses on the latest innovations and techniques in veterinary medicine aimed at improving the health and well-being of pets. This edition explores cutting-edge therapies, including regenerative medicine, gene therapy, immunotherapy, and precision medicine, which are revolutionizing the treatment of chronic and acute conditions in companion animals. By highlighting breakthroughs in diagnostics, personalized treatment plans, and minimally invasive surgical procedures, the issue underscores the growing role of advanced technology in extending and enhancing the quality of life for pets. The special edition also emphasizes the importance of interdisciplinary collaboration between veterinarians, researchers, and biotechnologists to drive further progress in the field. With a combination of case studies, clinical trials, and expert reviews, this issue serves as a comprehensive resource for veterinary professionals seeking to stay at the forefront of advanced therapeutic approaches.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
