

## Special Issue

# Diagnosis, Epidemiology, and Vaccine Development of Swine Viral Diseases—2nd Edition

### Message from the Guest Editor

Pigs are among the most widely raised livestock species globally, and the sustainability of modern swine farming depends heavily on effective protection against viral infections such as African swine fever virus (ASFV), porcine reproductive and respiratory syndrome virus (PRRSV), porcine epidemic diarrhea virus (PEDV), porcine deltacoronavirus (PDCoV), porcine circovirus (PCV), pseudorabies virus (PRV), classical swine fever virus (CSFV), swine influenza virus (SIV), and other emerging or re-emerging swine viruses. Building upon the foundation of the first volume, this second Special Issue will continue to explore the diverse aspects of these viruses, with a particular focus on diagnosis, epidemiology, and vaccine development. We sincerely welcome submissions that advance understanding and innovation in these areas. We hope this second volume will attract an even wider range of outstanding works to further enrich our understanding of swine virology and its applications in veterinary medicine.

### Guest Editor

Dr. Yifei Lang

College of Veterinary Medicine, Sichuan Agricultural University,  
Chengdu 11130, China

### Deadline for manuscript submissions

31 July 2026

## About the Journal

### Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

### Author Benefits

#### High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.8 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
