Soft-Tissue Sarcomas in Dogs

Message from the Guest Editors

In contrast to humans, where soft-tissue sarcomas are rare tumours, soft-tissue sarcomas are relatively common tumours in dogs, where they represent 10–20% of all neoplasms. The diagnosis, classification, and management of canine soft-tissue sarcomas has evolved over many years, and the present Special Issue seeks to encapsulate some of these changes and presents the current, state-of-the-art understanding of these tumours in a series of review articles and case studies. Furthermore, the review explores comparative aspects of both human and canine soft-tissue sarcomas, arguing the case for canine tumours being an excellent model for exploring innovative and novel approaches to the treatment of the disease in all species.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
