

## Special Issue

# Advancements in Feline and Canine Neonatal Medicine and Reproduction

### Message from the Guest Editors

Neonatal medicine and reproduction in cats and dogs have made remarkable advances in recent years, leading to improved outcomes in producing healthy offspring. We are seeking papers highlighting advances in assisted reproductive technologies (ART) for cats and dogs, treatment of reproductive disorders, as well as cutting-edge research and innovative practices contributing to improved neonatal care for our Special Issue. In addition, the importance of hereditary aspects in neonatal health and reproduction is a very important aspect to consider. Overall, the content of this Special Issue will consist of original research papers, review articles, and short communications on all areas of small animal reproduction and neonatology. The goal is to provide a comprehensive overview of advances in feline and canine neonatal medicine, including gynecology, andrology, biotechnology, obstetrics, perinatal care, genetics, and ethical considerations. We invite inspiring contributors to share their knowledge and expertise for this exciting upcoming Special Issue.

### Guest Editors

Dr. Maja Zakošek Pipan

Prof. Dr. Margret L. Casal

Dr. Cindy Maenhoudt

### Deadline for manuscript submissions

closed (30 April 2025)

## About the Journal

### Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

---

### Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

### Author Benefits

#### High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
