Special Issue

Spotlight on Health Management in Calves

Message from the Guest Editors

Rearing healthy calves is crucial to the sustainability of the cattle industry. Multifactorial diseases such as neonatal calf diarrhea and bovine respiratory disease cause substantial economic losses in the dairy and beef industry due to treatment costs, calf losses, and poor performance. Advances in disease prevention and treatments for calves will improve animal health, productivity, and welfare.

This Special Issue named "Spotlight on Health Management in Calves" aims to strengthen the exchange of information between clinical veterinarians and researchers through the publication of a selection of research articles from leading researchers in this field. We welcome original research papers as well as reviews summarizing important aspects of calf health, productivity, and welfare on an individual animal or herd level. We hope that this Special Issue will stimulate further collaboration between researchers and veterinarians engaged in all aspects of pre-weaning calf health.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye
1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium
2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:
indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:
JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
