

## Special Issue

# Epidemiology, Biosecurity and Aquatic Animals Health

### Message from the Guest Editors

Aquaculture plays a crucial role in global food security and ecological balance. However, diseases caused by infectious and non-infectious agents in farmed aquatic species can be a bottleneck for the sustainability of aquaculture. Biosecurity, vaccination, and other evidence-based interventions are excellent examples of good aquaculture practices. Population-level studies of aquatic animal health are critical to promote the knowledge and technology related to the prevention and control of aquatic animal diseases. The aim of this Special Issue is to explore aquatic animal health through a series of research works focused on, but not limited to, etiology, molecular epidemiology, diagnosis, pathogenic mechanism, immunology, host interaction, and biosecurity, with the goal of achieving a useful supplement related to existing literature.

### Guest Editors

Dr. Xuan Dong

Yellow Sea Fisheries Research Institute, Chinese Academy of Fishery Sciences, Qingdao 266071, China

Dr. Beibei Jia

Department of Health Management, Atlantic Veterinary College, University of Prince Edward Island, Charlottetown, PE C1A 4P3, Canada

### Deadline for manuscript submissions

closed (15 September 2024)

## About the Journal

### Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

### Author Benefits

#### High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
