Advancements in Antimicrobial Resistance in Livestock in Germany

Message from the Guest Editor

Antimicrobial resistance (AMR) in livestock has become an increasingly critical issue, posing significant challenges to both animal health and public health. In Germany, extensive research efforts have been dedicated to addressing this challenge through various scientific and practical approaches within animal husbandry. This Special Issue aims to bring together scientific advancements and practical approaches addressing AMR in livestock in the German context. We welcome original research articles and reviews focusing on antimicrobial stewardship, surveillance programs, molecular epidemiology of resistant pathogens, alternatives to antibiotics, and One Health perspectives linking animal, human, and environmental health. Through this collection, we hope to provide an up-to-date reference for researchers, veterinarians, and stakeholders engaged in combating AMR in livestock in Germany.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, Kowloon, Hong Kong
2. Department of Pathobiology, Pharmacology and Wildlife Medicine, Faculty of Veterinary Medicine, Ghent University, 9820 Merelbeke, Belgium

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.8 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
