

Special Issue

Advances in Veterinary Reproduction and Embryonic Development

Message from the Guest Editors

Female livestock infertility, caused by ovulation disorders and early pregnancy termination, has significantly impacted livestock breeding. This Special Issue aims to focus on these reproductive issues, particularly in cattle and pigs. It will include recent research on ovulation-regulation mechanisms, as well as clinical treatments for ovulation disorders. Topics of interest include JIVET, which involves superovulating follicles that mature only in vitro. Understanding how to promote in vivo ovulation will be a key focus. Additionally, we will explore the abnormal termination of early pregnancy, especially in gene-edited and cloned animals. We welcome both research and reviews on molecular mechanisms behind these issues, alongside treatments and improvements. Contributions related to infectious diseases, genetic disorders, and nutritional abnormalities causing early pregnancy termination are also encouraged. This Special Issue aims to foster collaboration among experts in reproductive disorders and therapies in livestock.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
