The Progress of Equine Medical Research in China and Beyond

Message from the Guest Editors

The 2024 International Forum of Equine Medicine, held under the auspices of the 11th Annual Congress of the Chinese Veterinary Medical Association (CVMA), was hosted by the CVMA Chinese Board of Equine Practitioners (CBEP) and the College of Veterinary Medicine at China Agricultural University. Taking place on 24–25th August in Wuhan, Hubei Province, China, this forum brought together equine medical researchers and practitioners from China, the USA, Austria, Korea, and other regions. The forum highlighted advancements in various facets of equine medicine, including internal medicine, surgery, sports medicine, reproductive science, and equine welfare. By providing a platform for knowledge exchange and skill enhancement, the forum aimed to promote the development of equine medical education and research in China and foster stronger international collaborations within the equine academic community. This Issue captures the key insights and research presented during the forum. Additionally, this Special Issue marks the launch of the CBEP program, designed to provide ongoing education and a robust communication platform for Chinese equine practitioners.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
