

Special Issue

Small Animal Wound Management and Reconstructive Surgery

Message from the Guest Editors

Reconstructive surgery can be used for management after neoplastic asportation or for wound management. It may include cutaneous surgery, the use of titanium mesh for head and neck reconstruction or the use of polypropylene mesh for large defects of the thoracic or abdominal walls. This Special Issue aims to provide selected contributions on basic and advanced surgery techniques in reconstructive surgery. Potential topics include, but are not limited to: reconstructed abdominal walls; reconstructed thoracic walls; reconstructive head and neck surgery; tubular flap; use of myocutaneous flaps; use of titanium mesh; use of polypropylene mesh; vascular flap; prospective uses of titanium 3D printing.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
