Trends in Antibiotic Resistance in Dermatology Patients Across Species

Message from the Guest Editor

This Special Issue will review antibiotic resistance in animals, emphasizing one health implication. The purpose is to increase awareness and explore alternatives to halt or reverse the resistance trend while effectively treating animal bacterial infections.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).
