

Special Issue

Histopathology and Therapy in Small Animals Oncology

Message from the Guest Editors

The theme of this 2023 Special Issue of *Veterinary Sciences* will focus on “Histopathology and Therapy in Small Animal Oncology”. The editorial team thought that this topic was appropriate following the progress in the diagnostic pathology and clinical oncology of small animals achieved over the past decade. The interest in veterinary oncology has increased exponentially, resulting in new florid collaborations among research groups from different parts of the world, which have improved the management of common neoplastic diseases and understanding of rarer disorders. Advances in small animals’ oncology research also continue to benefit One Health, as pets share genetic similarities with humans but age faster; this comparative approach continues to maintain a promising role in increasing knowledge on neoplastic diseases and therapeutic options. In this Special Issue, we invite all actors in the field of veterinary oncology, including but not restricted to veterinary pathologists, oncologists, and surgeons. We invite researchers to submit research manuscripts and reviews.

Guest Editors

Dr. Riccardo Finotello

Head of Veterinary Oncology, Veterinary Oncology and Radiation Oncology Unit, AniCura Italy, 40126 Bologna, Italy

Dr. Guido Rocchigiani

Lecturer in Veterinary Pathology, Leahurst Campus, University of Liverpool, Chester Highroad, Liverpool CH64 7TE, UK

Deadline for manuscript submissions

closed (10 September 2025)

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, Kowloon, Hong Kong
2. Department of Pathobiology, Pharmacology and Wildlife Medicine, Faculty of Veterinary Medicine, Ghent University, 9820 Merelbeke, Belgium

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.8 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
