Advances in Veterinary Anatomy: Connecting Basic Research with Clinical, Biotechnological, and Educational Innovations

Message from the Guest Editors

This Special Issue, titled "Advances in Veterinary Anatomy: Connecting Basic Research with Clinical, Biotechnological, and Educational Innovations", will provide a comprehensive platform for exploring the latest advancements in veterinary anatomy. Veterinary anatomy serves as the cornerstone for understanding animal health, disease mechanisms, and treatment strategies. This Special Issue will highlight innovative research, techniques, and methodologies that enhance our knowledge of animal anatomy and their applications in clinical, biotechnological, and educational contexts. Contributions that integrate basic anatomical research with cutting-edge diagnostic or therapeutic approaches and recent advancements in the biotechnological field, as well as studies that explore novel teaching methods for veterinary anatomy, are especially encouraged. By collating diverse perspectives, this Special Issue will bridge the gap between fundamental research, practical applications, and educational innovation, ultimately advancing the veterinary profession. Giorgio Mirra and Mirko Sergio will assist this Special Issue to increase its scope and reach.

Guest Editors

Dr. Alessia Di Giancamillo

Dr. Margherita Pallaoro

Prof. Dr. Silvia C. Modina

Deadline for manuscript submissions

31 January 2026

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
