

## Special Issue

# The Interface between Veterinary Management and Behavioral Management for Captive Nonhuman Primates

### Message from the Guest Editors

Veterinarians and behavioral scientists have to work together to manage the lives and enhance the welfare of captive non-human primates. This involves virtually all aspects of the primates' care and environment, including issues related to husbandry, health care, research participation, socialization, and environmental enrichment. All of the articles in this Special Issue will focus on situations in which veterinarians and behavioral scientists have collaborated to address issues related to the health and welfare of non-human primates maintained in captivity in laboratories, breeding colonies, zoos, and sanctuaries. All of the articles will be co-authored by the veterinarians and behavioral scientists who have worked, and continue to work, together. Articles will emphasize chimpanzees, baboons, macaques, and marmosets. Topics covered will focus on those issues that most directly address the specific purposes for which the nonhuman primates are living in captivity.

## About the Journal

### Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

---

### Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium
  2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

### Author Benefits

#### High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.8 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
