Research in Small Animal Clinical Dermatology

Message from the Guest Editor

I have the honor to be a for *Veterinary Sciences*. The journal is preparing a Special Issue titled “Research in Small Animal Clinical Dermatology”. This special issue will focus mainly on new research projects on skin diseases in dogs and cats. Furthermore, special attention will be given to feline allergic skin diseases and the complexity of their control. Specific focus will also be given to the pharmacological treatment of skin diseases, exploring new frontiers. The submission of new research projects in this field will be appreciated, as these articles will improve the value of this Special Issue of *Veterinary Sciences*.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).
