

Special Issue

Current Advances in Veterinary Oncology

Message from the Guest Editors

Cancer in pets is an increasing cause of morbidity and mortality worldwide. Driven by the development of novel techniques and the deepening of knowledge pertaining to tumor biology, veterinary oncology has witnessed substantial advances in the last decade. The integration of morphological features with the molecular and genomic characterization of tumors and clinicopathological data allowed the pathologic basis of cancer in animals to be elucidated, in order to identify druggable targets, develop specific treatments tailored to the tumor type, as well as to better anticipate the prognosis and predict the response to treatment. This Special Issue of Veterinary Science is focused on the current knowledge and recent advances in veterinary oncology. We encourage submissions of original research articles and reviews that focus on various aspects of veterinary oncology, including tumor pathology, cancer genetics and epigenetics, diagnostic and prognostic tools, and novel therapeutic approaches.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
