

Special Issue

Anatomy and Reproductive Physiology of Domestic, Exotic and Companion Animals

Message from the Guest Editors

The Special Issue titled 'Domestic and Exotic Animal Anatomy and Reproductive Physiology' is a collection of original research articles and reviews on the many facets of animal anatomy associated with reproductive tissues or systems and the integrated functions of reproductive processes in both male and female domestic and exotic animal species. The issue aims to exchange viewpoints and encourage new research perspectives in veterinary and animal science that contribute to the wellness and enhancement of reproductive processes and competency.

The scope of topics includes, but is not limited to, the following:

- Drug or hormone therapies utilized for treatment or enhancement of reproductive tissues or processes;
- Pathophysiology of reproductive tissues and/or reproduction processes;
- Morphology and/or anatomy of reproductive tissues or systems;
- Comparative reproductive anatomy, which may include species or breeds within species;
- Gonadal function/dysfunction, i.e., endocrine processes, gamete development, and therapy;
- Characterization, manipulation, or management of reproductive cycles.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
