

Special Issue

Assessments and Impact of Animal Diseases across the Food Chains

Message from the Guest Editors

Veterinary Science has invited us as for a Special Issue entitled "Assessments and Impact of Animal Diseases across the Food Supply Chains". The aim of this Special Issue is to address the impact of livestock diseases, including endemic diseases, from conception to consumption as a whole system. To address sustainable livestock health and productivity, food insecurity, poverty, malnutrition, and gender inequality, food waste, clean water supplies, local and global markets, food safety, and the impact of urbanization on disease in the food supply chain. We focus on urgent challenges within the One Health Concept that will not be solved without the active engagement of the developed world's veterinary medical profession accompanied by modernization of veterinary services throughout the developing world.

Guest Editors

Prof. Dr. Mo Salman

Animal Population Health Institute, College of Veterinary Medicine and Biomedical Sciences, Colorado State University, Fort Collins, CO 80523-1644, USA

Prof. Dr. Alan M. Kelly

Dean Emeritus, Department of Pathobiology, School of Veterinary Medicine, University of Pennsylvania, 3800 Spruce Street, Philadelphia, PA 19104, USA

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
