

Special Issue

Reproductive Biotechnology in Livestock

Message from the Guest Editors

Reproductive biotechnology has manifold applications and great innovation potential in livestock. Adopting reproductive biotechnological tools such as in vitro embryo production, ovum pick up, somatic cell nuclear transfer/cloning, preantral follicle technology, transgenic animal production, etc., will help accelerate reproduction of high-producing livestock. Therefore, this Special Issue of *Veterinary Sciences* aims to collect and disseminate some of the most significant and recent research regarding the development and application of reproductive biotechnology in livestock. In this Special Issue, original research articles and reviews on this topic are welcome. We look forward to receiving your contributions.

Guest Editors

Prof. Dr. Juan Li

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
