Deadline for manuscript submissions:

**closed (31 December 2024)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue of *Viruses* will explore key challenges in the global elimination of viral hepatitis. It will particularly focus on three broad areas of research that are all needed to reduce the global burden of viral hepatitis. First, it will report innovations in diagnostics to improve and simplify the process of obtaining a reliable, low-cost, and quick diagnosis. Second, it will explore novel pathways that link people to care and treatment, making treatment services acceptable and reducing stigma. Third, it will examine surveillance systems and interventions in healthcare data to monitor progress toward elimination. This Special Issue aims to publish cross-disciplinary submissions including epidemiology, clinical, health services, and social research focused on viral hepatitis.

Dr. Riccardo Nevola

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.**

**Journal Rank:** JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)
