Virology Research in South Africa—from a Great Legacy to an Optimistic Future

Guest Editors:

Prof. Dr. Burtram C. Fielding

Molecular Biology and Virology
Research Laboratory,
Department of Medical
Biosciences, University of the
Western Cape, Bellville 7535,
South Africa

Dr. Ziyaad Valley-Omar

Medical Virology, National Health
Laboratory Service, Groote
Schoor Hospital, University of
Cape Town, Cape Town, South
Africa

Deadline for manuscript
submissions:

closed (1 December 2025)

Message from the Guest Editors

Given the success of the previous Special Issue, we are excited to extend an invitation to our colleagues to participate in a second volume of this Special Issue. The second volume of the Special Issue of the journal *Viruses* will focus on “Virology Research in South Africa—from a Great Legacy to an Optimistic Future”. As a continuation of the First Volume, this volume aims to provide a comprehensive overview of research on HIV, viral hepatitis, influenza, respiratory syncytial virus (RSV), severe acute respiratory syndrome coronavirus type 2 (SARS-CoV-2), coronaviruses, other less studied respiratory viruses, zoonotic viruses as well as research on viral vaccines, vaccine development and clinical trials on viral vaccines conducted in South Africa. Other areas relevant to this issue are research related to antiviral resistance for HIV and other viral drugs. This issue is not restricted to research on human viruses, and we invite submission of all virology research from South Africa.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.**

Journal Rank: JCR - Q2 (Virology) / CiteScore - Q1 (Infectious Diseases)
