Novel Concepts in Virology

Guest Editors:

Dr. Eric O. Freed

Director, HIV Dynamics and Replication Program, Center for Cancer Research, National Cancer Institute, Frederick, MD 21702-1201, USA

Prof. Dr. Albert Bosch

Enteric Virus Laboratory, Section Microbiology, Virology and Biotechnology, Department of Genetics, Microbiology and Statistics, School of Biology, Avda. Diagonal 643, 08028 Barcelona, Spain

Deadline for manuscript submissions:
closed (30 June 2020)

Message from the Guest Editors

Dear Colleagues,

This Special Issue is related to the conference “Viruses 2020: Novel Concepts in Virology” which will be held in Barcelona, Spain, 5–7 February 2020.

Because of their global impact on human, animal, and plant health and their utility as tractable model systems, viruses continue to play a central role in all aspects of biomedical research, ranging from molecular and cell biology, structural biology, and immunology to evolution, epidemiology, and bioinformatics.

Symposium participants, as well as all researchers working in the field, are cordially invited to contribute original research papers or reviews to this Special Issue of *Viruses*.

Dr. Eric O. Freed

Message from the Editor-in-Chief

Viruses (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.**

Journal Rank: JCR - Q2 (*Virology*) / CiteScore - Q1 (Infectious Diseases)
