Message from the Guest Editors

Dear Colleagues,

Viral infections by endemic, emerging, and reemerging viruses are constantly challenging public health systems and health policies all over the world. Circulation on these viruses in developing countries press for the development of new cost-effective diagnostic methods, therapeutic and prevention strategies, and efficient epidemiological surveillance. Despite particular economic and public health adversities, developing countries have been braving those issues and making important contributions to virology research over the years.

Looking for high-quality science developed in the face of unique challenges, we encourage researchers to submit articles to this Special Issue entitled “Viral Infection in Developing Countries.” This Special Issue’s goal is to publish research studies that address efforts for viral diagnosis, surveillance, prevention and treatment in developing countries. Investigations on pathogenesis and clinical aspects of virus infection are also welcome, as well as relevant epidemiological findings. Both original manuscripts and reviews are welcome.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.**

Journal Rank: JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)
