### Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is to present a broad scope of review on viral diseases, especially in domestic animals. The potential authors are cordially welcome to present their input regarding prevention, biosecurity measures and further perspectives to limit further spread of economically important diseases. All potential authors are encouraged to submit reviews and articles regarding strategies to limit the spread of infectious diseases in domestic animals.

Prof. Dr. Grzegorz Wozniakowski

Dr. Patryk Tarka

## Message from the Editor-in-Chief

*Viruses* (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus**, **SCIE (Web of Science)**, **PubMed**, **MEDLINE**, **PMC**, **Embase**, **PubAg**, and **other databases**.

**Journal Rank:** JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)
