

## Special Issue

# RSV Epidemiological Surveillance: 3rd Edition

### Message from the Guest Editors

The aim of this Special Issue is to provide a comprehensive picture of RSV epidemiology worldwide, thereby contributing to improved prevention and treatment of such infections in childhood. We invite researchers to contribute original articles, reviews, perspective articles, opinion papers, short communications, and case series addressing all aspects of RSV epidemiology, including (but not limited to) new epidemiological trends, prevention and treatment strategies, clinical features of RSV infection at different ages, and the impact of climate change.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,  
National Cancer Institute, Frederick, MD 21702-1201, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

#### Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Infectious Diseases)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
