# Herpesvirus Transcriptional Control

## Message from the Guest Editor

For over four decades, researchers have studied the transcription of herpesvirus genes to understand their roles in lytic and latent infections and as a paradigm for eukaryotic transcription. The advent of new technologies, approaches and model systems, such as RNA sequencing (RNA-seq), chromatin immunoprecipitation sequencing (ChIP-seq), proteomics and organoid cultures, is providing greater insights into the regulation of herpesvirus transcription during lytic infection and reactivation, as well as the restrictions in viral transcription observed during the establishment and maintenance of latency. This Special Issue will highlight current research examining herpesvirus-host interactions that modulate viral and/or host transcription, which influence the life cycles and pathogenesis of herpesvirus family members.

## **About the Journal**

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

#### **Editor-in-Chief**

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research, National Cancer Institute, Frederick, MD 21702-1201, USA

#### **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

## **Journal Rank:**

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
