# **Special Issue**

# Global Foot-and-Mouth Disease Control, Volume II

## Message from the Guest Editor

We are pleased to announce the opening of the second volume of the Global Foot-and-Mouth Disease Control issue to submissions. Foot-and-mouth disease (FMD) is an infectious transboundary viral disease that has severe implications not only for the health and production of cloven-hoofed animals, including large and small ruminants and pigs, but also for the economy of the FMD-endemic countries. In this second volume of the Special Issue, we aim to widen our research to accept papers on all aspects of FMD research. Potential topics include, but are not limited to: viral pathogenesis, virus-host interactions, viral diagnosis and epidemiology, as well as vaccines/antivirals.

# Viruses

an Open Access Journal by MDPI

Impact Factor 3.5 CiteScore 7.7 Indexed in PubMed

## **About the Journal**

## Message from the Editor-in-Chief

Viruses (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

## **Editor-in-Chief**

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research, National Cancer Institute, Frederick, MD 21702-1201, USA

### **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAq, and other databases.

## Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
