# **Special Issue**

# ASFV Countermeasures, Pathogenesis, and Epidemiology

### Message from the Guest Editor

African swine fever is currently causing a pandemic and continuing to spread and evolve throughout the world. Therefore, this Special Issue welcomes the submission of articles that address the discovery or evaluation of countermeasures such as vaccines or therapeutics, articles that address the alteration of the virus or host to changes in pathogenesis, and epidemiology studies that track the disease in historical or current outbreaks.

## **About the Journal**

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.
