

## Special Issue

# High Consequence Viral Transmission

### Message from the Guest Editor

As a Senior Scientist at the University of Texas Medical Branch (UTMB) in Galveston, I am honored to serve as Guest Editor for this Special Issue in *Viruses*, titled “High Consequence Viral Transmission”. Institutions with a strong foundation in infectious disease and high-containment laboratories have provided an exceptional platform to investigate highly pathogenic viruses in both in vitro and in vivo systems. This Special Issue seeks to bring together cutting-edge research and comprehensive reviews that explore the factors driving the transmission of high-consequence viruses. From molecular mechanisms and host–pathogen interactions to ecological drivers and public health implications, we aim to showcase multidisciplinary perspectives that deepen our understanding of how these viruses spread and how we might better predict, prevent, and control future outbreaks. I look forward to working with contributing authors and reviewers to highlight innovative science that reflects the urgency and importance of this global health topic.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

#### Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
