

## Special Issue

# Mass Spectrometry and Viral Analysis

### Message from the Guest Editor

Mass spectrometry has developed rapidly into one of the most powerful biochemical analytical techniques, with tools and technologies for quantitative mass analysis, sample preparation, bioinformatics and system-level analysis advancing at an unceasing pace. Applied to complex systems, the depth and sensitivity of analysis now available has facilitated the routine profiling of the virus–host interface at various levels in multiple systems. Moreover, it has contributed to the integrative structural analysis of viral systems.

### Guest Editor

Prof. Dr. Paul D. Gershon

Department of Molecular Biology & Biochemistry, University of California, Irvine, CA 92697, USA

### Deadline for manuscript submissions

closed (31 July 2025)

## About the Journal

### Message from the Editor-in-Chief

*Viruses* (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

#### Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
