6th Pan-American Dengue Research Network Meeting

Message from the Guest Editors

The Pan-American Dengue Research Network Meeting (<http://www.pandenguenet.org>) is an initiative to gather researchers across the Americas every two years to discuss their recent advancements in the field, communicate this information to the scientific community in the region, foster collaborations among groups, and discuss future research strategies that will further strengthen the field. During these meetings, cutting-edge topics on dengue field are presented and discussed. One of the main objectives of this application is to guarantee the participation of many graduate students and junior investigators from Latin American and Caribbean regions, which have been usually underrepresented in science. The scientific meeting to be held for the first time in the US and undoubtedly will make an important contribution to supporting and broadening the impact of research on dengue throughout the hemisphere. The collection of reviews and original research papers in this Special Issue is intended to summarize and showcase current research on arboviruses by investigators from throughout the Americas. Assoc. Prof. Nikolaos Vasilakis

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
