

Special Issue

An Interdisciplinary Approach to Virology Research

Message from the Guest Editor

Dear Colleagues,

Interdisciplinary research by teams that integrates information, data, techniques, tools, and/or theories from two or more research fields advances fundamental understanding and solves problems in biology. The current COVID-19 pandemic boosted virus research through collaborations with various specialists in conjunction with recent advances in technology, highlighting the importance of interdisciplinary research in virology that is beyond the scope of the traditional field. In this Special Issue of *Viruses*, we will focus on virus research performed by researchers from two or more disciplines. We welcome original research articles and reviews across a broad range of virus research from virus molecular biology and pathogenesis to antiviral agents and therapy.

Guest Editor

Dr. Yoshitaka Sato

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
