

Special Issue

Mpox (Monkeypox): From Neglected Tropical Disease to Emerging Global Pathogen

Message from the Guest Editors

This Special Issue of *Viruses* will address a spectrum of topics on mpox and the MPXV including epidemiology, clinical features, molecular genetics, immunology, virology, diagnosis, treatment, prevention, and vaccination. Articles describing the MPXV in natural animal hosts and experiment animal models of infection are welcomed. Submissions which discuss the infection among special groups, including immunocompromised persons, pregnant persons, children, and commercial sex workers, and its association with sexual transmission are encouraged. Submissions can be in the form of original research articles, reviews, communications, viewpoints, case reports, and editorials. Illustrative and graphic materials including photographs are encouraged when possible.

Guest Editors

Dr. David A. Schwartz

Perinatal Pathology Consulting, Atlanta, GA, USA

Dr. Robert Colebunders

Global Health Institute, University of Antwerp, Antwerp, Belgium

Dr. Patrick Katoto

Centre for Tropical Diseases and Global Health, Catholic University of Bukavu, Bukavu, Democratic Republic of Congo

Deadline for manuscript submissions

1 March 2026

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
