

Special Issue

Advances in Rabies Research 2023

Message from the Guest Editors

The Special Issue is associated with the conference “XXXIII Rabies In The Americas” (RITA) international conference, which will now be taking place in Bogota, Colombia, in October 2023, as an on-site event. RITA is a conference that has been held every year since 1990 by the United States of America, Canada, and Mexico, and more recently by Brazil and Argentina, as well as other Latin American countries; it aims to connect researchers, national and local directors of programs, laboratory workers and all those in the Americas and in other parts of the world who are involved in the surveillance, prevention and control of Rabies. RITA conferences are events strictly centered on all aspects of rabies research and provide excellent opportunities to focus on research topics in this area. Symposium participants, as well as all researchers working in the field, are cordially invited to contribute original research papers or propose reviews to this Special Issue of *Viruses*. For further information, visit the dedicated website: <https://www.rabiesintheamericas.org/>.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
