

## Special Issue

# Endemic and Emerging Swine Viruses 2021

### Message from the Guest Editors

Following the success of the Special Issue “Endemic and Emerging Swine Viruses,” we are editing a 2021 edition of this very popular topic for new submissions. Likewise, the main topic of this Special Issue is agriculturally important swine viruses that have an effect on swine production or overall swine health. This includes viruses that have recently caused outbreaks, for example, the African swine fever virus (ASFV) in Europe and Asia or the classical swine fever virus (CSFV) in Japan, which are causing devastating losses to the swine industry. Endemic swine viruses would include porcine reproductive and respiratory syndrome virus (PRRSV), porcine epidemic diarrhea virus (PEDV), porcine deltacoronavirus (PDCoV), swine influenza virus (SwIV), and foot-and-mouth disease virus (FMDV), Senecavirus A (SVA), Swine Influenza, Porcine Circovirus (PCV), Porcine Sapelovirus (PSV), Porcine Astrovirus (PAstV) or any other endemic or emerging porcine viruses.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Dr. Eric O. Freed

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

#### Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.2 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
