Virology in the Czech Republic – from a Great Legacy to Optimistic Future

Message from the Guest Editor

We are currently experiencing one of the worst viral pandemics in recent history. The new coronavirus, SARS-CoV-2, has shown that we need to be prepared for new viral threats. This is true not only for emerging viruses but also for those seemingly under control. Moreover, due to global warming, some viruses may migrate from tropical regions to areas with a continental climate. Therefore, it is extremely important to exploit and interlink all possible resources and scientists worldwide in a battle against the (re)emerging threats posed by viruses. This Special Issue of *Viruses* aims to introduce state-of-the-art virology research in the Czech Republic, which is a country that has left a noticeable trace in the field of virology. I look forward to receiving your submissions for this Special Issue.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eric O. Freed

HIV Dynamics and Replication Program, Center for Cancer Research,
National Cancer Institute, Frederick, MD 21702-1201, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.

Journal Rank:

JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).
